## Services & Fees

<table>
<thead>
<tr>
<th>Device, Product or Service</th>
<th>Description</th>
<th>Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Neurofeedback and Biofeedback Training &amp; Testing</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Consultation/Evaluation</strong></td>
<td>Review history. Look for underlying causes from a brain and functional medicine perspective. Identify neurofeedback options and other bio/neuro-training strategies. Remote or in-person.</td>
<td>30 minutes $125</td>
</tr>
<tr>
<td><strong>In-office Neurofeedback Sessions</strong></td>
<td>Includes discussions, customized training protocols, setup and cleanup. The length of the session is usually not the key to progress. Some clients find shorter sessions are better than longer training sessions. Extended sessions are less common but may be suggested in certain cases.</td>
<td>Regular session (25-40 minutes) $115 Extended session (45-55 minutes) $150</td>
</tr>
<tr>
<td><strong>Cellcom BioRegulation - Body Biofeedback Sessions</strong></td>
<td>Helps settle down and “reset” your nervous system. Helps with anxiety, panic attacks, chronic sleep problems, physical pain, autoimmune issues, inflammation, and more. Improves cell-to-cell communication. Inward healing session (guided visualization) with Carolyn Cohen.</td>
<td>Regular session $150 Special Guided Visualization $75</td>
</tr>
<tr>
<td><strong>qEEG Brain Mapping</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>qEEG ERP Brain Map</strong></td>
<td>HBI Brain Diagnostics (Switzerland) provides a unique and sophisticated qEEG that analyzes your brain while engaged in a task. The database compares your brain to others in your age range. It identifies areas that under-perform or are excessively active. The analysis helps make a more precise diagnosis while identifying clearer therapy options. The database contains reliable markers of brain dysregulation, for example, markers for auditory and visual processing dysfunction, and inhibitory or impulse control.</td>
<td>EEG Recording $950 Visual/Auditory task EEG recording $850 Processing, analysis and map generation at EEG lab In-depth review of findings (remote or in-person) Written summary of findings</td>
</tr>
<tr>
<td><strong>Functional Connectivity qEEG Map</strong></td>
<td>Identifies patterns of functional connectivity—how one area of the brain communicates with another. Poor connectivity can correlate with or contribute to learning disabilities, post-concussion syndrome, processing issues, ADHD, emotional issues, racing mind, developmental challenges, and other brain issues. The report recommends specific neurofeedback protocols and target areas. It uses a unique multi-channel coherence training that often results in accelerated training success.</td>
<td>• EEG recording $850 • Processing, analysis and map generation at EEG Lab • In-depth review of findings (remote or in-person) • Written summary of findings</td>
</tr>
<tr>
<td><strong>Combined ERP and Connectivity Map</strong></td>
<td>Discounted rate for the ERP and a connectivity map when done together.</td>
<td>$1,350</td>
</tr>
<tr>
<td><strong>EEG Review &amp; Analysis</strong></td>
<td>Record, review, and analyze EEG.</td>
<td>• EEG recording $850 • Spectral Analysis, Review $550</td>
</tr>
<tr>
<td><strong>Other</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>PEMF (BioRegulation Therapy) session</strong></td>
<td>Improves cell signaling (helps your body get in sync). 140 programs “tune up” the body, including sleep, pain, calming, sinus issues, digestive issues, jet lag. Programs for help with ADHD, panic attacks and anxiety. It can be remarkably helpful.</td>
<td>40 minutes $85</td>
</tr>
<tr>
<td><strong>Home neurofeedback training</strong></td>
<td>We have options for training at home. For information call Dr. Elizabeth Doyle at 561-594-2062 or check our website.</td>
<td></td>
</tr>
<tr>
<td><strong>Cancellation fee</strong></td>
<td>Missed appointments/cancellations &lt; 24 hours’ notice.</td>
<td>$50</td>
</tr>
