

Device, Product or Service	Description	Price
Primary Neurofeedback and Biofeedback Training		
Consultations	Review history in detail, identify plans and options, or other discussions and review of progress.	per half hour \$ 95
Neurofeedback Sessions	Appointments generally range from 30-45 minutes (includes discussions, training, setup/cleanup).	Regular Session \$115
Cellcom by Lenyo BioRegulation body biofeedback sessions	Beneficial for chronic pain, panic attacks, developmental issues, immune system issues, inflammation, digestive issues and more. Helps individuals “reset” or recalibrate their nervous system. Improves cell-to-cell communication. Can also be paired with a guided visualization session with Carolyn Cohen.	Regular session \$125 Optional guided therapy add +\$50
Brain Mapping		
qEEG brain map	Identifies patterns that correlate with and/or contribute to symptoms related to learning disabilities, processing issues, concussions, ADHD, emotional/mood issues, anxiety, racing mind, difficulty quieting, developmental issues and self-soothing . Includes neurofeedback protocol recommendations that more accurately target the issue, often resulting in accelerated training success.	Initial map \$695
		Optional written summary \$100
		Optional follow-up map \$595
Auditory, visual and sensory processing map	Sometimes used in addition to the qEEG brain map when visual or auditory processing issues are suspected, to guide more targeted neurofeedback training.	\$300
Other Neurofeedback and Biofeedback Services		
LENS neurofeedback session + LuxPro	LENS (low energy neurofeedback), combined with Luxpro PEMF therapy, helps the brain reorganize, improves maladaptive patterns for better self-regulation and enhances cell-to-cell communication.	\$115
Alpha theta neurofeedback	Helps with sleep, letting go of past emotional blocks, getting off alcohol and quieting the mind. Enhances creativity, self-esteem and peak performance. Sometimes called the “doorway to the subconscious.”	\$115 <i>(up to 45 minutes)</i>
Cognitive Testing		
Testing: Cognitive/Memory/Attention screening	This baseline computerized test assesses performance in memory, executive function, processing speed and attention. Provides well-validated test results comparing you to others in your age group.	\$100
CANCELLATION POLICY		
Cancellation fee	Fee for missed appointments and cancellations with less than 24 hours’ notice	\$75
